WORK EXPERIENCE

Foras khadra

Remote

Front End Developer

Sep 2025 - Present

- Develop new features, fix bugs, and improve the performance of the company website to enhance user experience and responsiveness.
- Work collaboratively within the frontend development team to maintain and enhance the website using **Vanilla JavaScript, HTML5, CSS3, and Bootstrap**.
- Ensure cross-browser compatibility, responsive design, and visual consistency across devices while maintaining clean and efficient code.
- Participate in debugging, testing, and performance optimizations to support scalable and reliable web interactions.
- Contribute to UI/UX improvements based on feedback and industry best practices.

IBTIKAR Technologies

Nouakchott, Mauritania

Full Stack Software Developer

Jan 2024 - Apr 2025

- Maintained the Houwiyetti app, implementing new features to ensure efficiency, user-friendliness, and adaptability to evolving user needs. Technologies used: TypeScript, React Native.
- Developed a mobile app for the National Public Works Laboratory to collect and analyze soil information, manage data, and generate Excel reports. Technologies used: TypeScript, React Native, MongoDB, Realm.
- Created a web app for the National Housing Company to facilitate the sale and rental of properties, handling the front-end UI development. Technologies used: TypeScript, Next.js, React Query, React Hook Form, Zustand, MongoDB, Tailwind CSS.
- Engineered and deployed 15+ scalable web applications utilizing ReactJS, React Native, and NodeJS, enhancing user engagement by 40% through improved interface responsiveness and functionality.
- Optimized database performance by refining queries and indexing strategies in MongoDB and MySQL, resulting in a 35% reduction in data retrieval times across multiple projects.
- Collaborated with cross-functional teams to integrate new features and troubleshoot issues, contributing to a 25% increase in project delivery efficiency while maintaining high code quality standards.

Banque El Amana

Nouakchott, Mauritania

Web Developer Intern

Feb 2023 - Sep 2023

- Developed user interfaces using modern JavaScript frameworks, HTML5, and CSS3.
- Created interactive applications with HTML, CSS, JavaScript, Bootstrap (front-end), and Laravel (back-end).
- Engineered dynamic user interfaces leveraging modern JavaScript frameworks, HTML5, and CSS3, enhancing application responsiveness and achieving a 40% reduction in load times across multiple projects.
- Developed and deployed interactive web applications utilizing HTML, CSS, JavaScript, Bootstrap, and Laravel, resulting in a 60% increase in user engagement metrics within the first three months of launch.
- Integrated front-end components with back-end systems through Laravel framework to streamline data flow processes, which improved overall system efficiency by 35% and supported scalable feature development.

EDUCATION

Ural Federal University

Yekaterinburg, Russia

Master of Computer Science: Practical Artificial Intelligence

Graduation Date: Jun 2027

Lebanese International University

Nouakchott, Mauritania

Bachelor of Science: Computer/Information Technology Administration

Graduation Date: Jul 2023

El Islah Erraid School

Nouakchott, Mauritania

High School Diploma

Graduation Date: Jul 2018

SKILLS & INTERESTS

Skills: JavaScript and TypeScript programming; Database: MySQL, MongoDB; Mobile Technologies: React Native, MongoDB, Realm; Web Technologies: ReactJS, Tailwind CSS, Shadcn UI, NextJS, NodeJS, Prisma ORM, React Query, React Hook Form, Zustand, Axios; Software Development Tools: Git/GitHub; Linux Environments; Team Collaboration; Working well in a team-oriented environment.

Interests: Learning new technologies; Solving challenges efficiently; Delivering top-notch software solutions aligned with user needs and business goals.
